For Some Time and a Good Strong Team Will Be Organized and Put in the Field.

In writing to his paper about local base ball matters the Orangeburg correspondent of The News and Courier says since it was definitely decided that Orangeburg will be in the State League this year very little "hot air" has emanated from this vicinity, but this fact is not indicative of a diminuation of interest on the part of the local fans.

The management has been steadily at work and satisfactory progress has had none. Nor has he ever sent a been made. It has been decided not to select a manager untl the entire team has reported, when the most available man of the aggregation will probably be designated for that posi-

In the meantime the directors are looking after affairs. A number of The List of Jurors for First Week of players wish to come here for a tryout and several of last season's men have not been heard from since the receipts for their contracts were returned. These have been notified that unless they signify their intention of keeping their contracts, when transportation will be sent them, they will be reported to the national secretary.

Cook, who played third on last year's team, was offered the management, but from what can be learned he is now playing independent ball and will not report. However, he has been notified as to the steps which will be taken, and perhaps will change his mind rather; than be black-listed. Several men are already here and the whole crowd is expeted by May 1.

Had it become known earlier in the season that the town was to have base ball a different location for the park would have been secured one more accessible to the business part of the city, but it is now too late to consider a change, so, for this season at least, the games will be pulled off, as heretofore, on the State College grounds. When the scason opens on the 11th of May Orangeburg will, as usual, be found with the goods.

And Everybody Seems to Miss Him Says a Correspondent.

The Washington correspondent of The News and Courier says Representative Lever has been greatly missed from his accustomed place in the House during the past week. His enforced absence has been noted by many people, who have asked where the little Congressman from South Carolina has gone. When told that he was ill, there have been many ex-

pressions of regret and sympathy. Mr. Lever is a friend of the newspaper man, and all of the Southern press boys know there will be something worth writing about when he is around. NO TOWN KNOCKERS.

HOW CORYVILLE, GOT RID OF A BUNCH OF UNPROGRESSIVES.

The Young Men Organized and the Croaking Critics Couldn't Stand the guarantee that J. G. Wannamaker Ordeal of Initiation.

So these town knockers, these croaking critics, were slowly undermining the good reputation of Cory-Take up Kohn's Standard Fashion ville by their incessant chorus of defa-Book and offer, only 20c, worth three mation. Nothing suited them. They opposed every movement for the good of the town. They croaked and knocked and clamored and hammered whenever anybody suggested a street improvement, a new building, the organization of a business men's club or

anything of the sort. Finally the G. B.'s were organized. Of course they did not take the knockers' bunch into their confidence. There was a reason and a good one for not especially interesting to those looking letting the knockers know. The G. B.'s were organized in secret. The initial meeting was held in an old The ladies of the Basket Band of abandoned schoolhouse half a mile out Whitman street will have a social of town. The G. B.'s had been in existence only a month or so, holding their meetings every Friday night in the old schoolhouse, when one of the knockers discovered that such a society had been formed. He straightway notified his brother knockers. The group met in a grocery store.

"Seems to be something mighty mysterious about it," remarked the chief knocker.

"Yes; can't imagine what they're up to," said another. "The society seems to have thirty or forty members, and most of them are the younger element around town, young business men." "How did you find that out?" asked knocker No. 3.

"Why, one of the members told me," replied the other.

All of which was quite true. It was true also that this member had violated no rule of the G. B.'s. He had been detailed to acquaint the knockers with these primary facts concerning the society. Immediately the knocker in chief had expressed a desire to attend a meeting. He was cordially invited along with his brother knockers. When the five town knockers filed nto the old schoolhouse at the regular Friday night meeting they found a most startling assemblage.
